MIDLAND NUCLEAR PLANT - ALAB-106 MONTHLY
REPORTS - DOCKET NC 50-329 AND 50-330

In response to your request for copies of reports which Consumers Power submitted in accordance with Condition 4 of ALAB-106 for the months of May 1973, June 1973, December 1973 and February 1975, Consumers Power has searched its files and found the following:

1. The Condition 4 report for June 1973 was combined with the Conditions 2 and 3 report for the third quarter of 1973 in my letter to Mr. Frank E. Kruesi dated June 29, 1973 (Attachment 1). ✓
2. The Condition 4 reports for December of 1973 and February of 1975 were contained in my letters to Dr. Donald F. Knuth dated January 24, 1974 and March 21, 1975, respectively (Attachments 2 and 3). ✓
3. Our files show that no nonconformances were issued between the date of the ALAB-106 Order and July 12, 1973. Note that construction activity did not begin until June 11, 1973 and apparently our June 1973 report (Attachment 1) was the first report under Condition 4. It appears that the reference to "our second report" in the cover letter should apply only to the Conditions 2 and 3 report and not to the Condition 4 report.

The attached copies are intended for your use and need not be returned to Consumers Power.
