

MAR 28 1974

DOCKET NOS.: 50-329 AND 50-330

APPLICANT : CONSUMERS POWER COMPANY (CPC)

FACILITY : MIDLAND PLANT, UNITS 1 AND 2

SUMMARY OF MEETING ON MIDLAND SITE GEOLOGY

On March 15, 1974, the Regulatory staff met in Bethesda, Maryland with representatives of Consumers Power Company and Bechtel Company to review the available data pertinent to the geology of the Midland plant site.

Bechtel representatives showed colored slides and photographs of the excavation at various stages of construction. They also presented a fence diagram depicting the stratigraphic units at the site. Boring logs were examined for correspondence with the visual data.

The applicant was instructed to ensure that all of the exhibited material will be retained at least until the power plant is in operation. Also, the applicant will include this material in its Final Safety Analysis Report.

An attendance list is enclosed.
