All Power Reactor Licensees and Applicants with Docketed Applications
to Construct or Operate a Power Reactor

Gentlemen:

This letter and enclosed NUREG 0219, Draft 2 are being sent to all licensees
authorized to operate a nuclear power reactor and to all applicants with
applications for a license to operate or construct a power reactor.

NUREG 0219 outlines the current position of the NRR staff on implementation
of the requirement to upgrade the qualification, training and equipping of
security personnel. Since this is a draft, I would appreciate your comments
by June 9, 1978 so that actual plant operating experience with security
personnel can be factored into the final document.

Sincerely,

James R. Miller, Assistant Director
for Reactor Safeguards
Division of Operating Reactors
