Docket Nos. 50-329  
50-330

MEMORANDUM AND ORDER

In accordance with its General Statement of Policy, issued today, on the Environmental Effects of the Uranium Fuel Cycle, the Commission directs that an Atomic Safety and Licensing Board for the Midland facility be reconvened, for the limited purpose of considering, in light of the facts and the applicable law, whether the construction permits for that facility should be continued, modified, or suspended until an interim fuel cycle rule has been made effective. The Board is directed to call for briefs from the parties on that issue, followed by evidentiary hearings if necessary. No hearing on the merits of the other issues assigned for reconsideration by the court of appeals in the Aeschliman v. NRC decision will be appropriate until the decision of the court of appeals has become final

By the Commission.
