Inspection Summary

Areas Inspected: On May 22, 1980, allegations relative to inadequate physical security and poor health physics control were telephonically received by the U.S.N.R.C., Atlanta Regional Office, from an individual who desires confidentiality. On June 3, 1980, inspectors interviewed this individual, inspected the facility, examined documentation, and conducted interviews of other plant personnel, ending the effort on June 5, 1980.

Results: The five specific allegations were unsubstantiated. There were no items of noncompliance.
