

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

July 8, 1980

Mr. Bill Wagner, Esquire  
Wagner, Cunningham, Vaughan,  
Genders & McLaughlin  
708 Jackson Street  
Tampa, FL 33602

IN RESPONSE REFER  
TO FOIA-80-328

Dear Mr. Wagner:

This is in reply to your letter dated June 13, 1980, in which you requested, pursuant to the Freedom of Information Act, copies of documents relating to Florida Power Corporation's Nuclear Plant at Crystal River, Florida, and containing as much detailed information as we have concerning:

- (1) The material actually used in the clothing used in the reactor room, and the material used in the face masks and particularly those portions that are pressed against the skin around the face;
- (2) The required or recommended cleaning procedures for reuse of the clothing and masks; and
- (3) Information concerning the nature of the chemicals or other cleansing products which are used in the washing procedure.

In response to your request, we have identified the documents listed in Appendix A as being subject to the general subject of your request. A copy of each document is enclosed, and they have been marked with arrows to indicate portions which deal with topics which are of direct interest to you. Note particularly Regulatory Guide 8.15 Section C.4.d (Document 2 of Appendix A), and NUREG-0041, Section 9.7 (Document 3 of Appendix A). Please note also that documents containing specific information relative to the Crystal River Nuclear Power Plant, Docket No. 50-302, are on file for public inspection and copying in the NRC's local Public Document Room located at the Crystal River Public Library, 668 N.W. First Avenue, Crystal River, Florida 32639, and in the NRC Public Document Room, 1717 H Street N.W., Washington, DC 20555.

For your information, a copy of the NRC's regulation 10 CFR Part 9 is enclosed. Section 9.14 details the charges for copying documents in the PDRs, and the charges for searching for particular documents by NRC clerical and administrative employees, or the NRC's professional or supervisory employees, if that additional effort should become necessary.

This completes action on your request.

Sincerely,

J. M. Felton, Director  
Division of Rules and Records  
Office of Administration

8007110139

Enclosures: As stated

Duplicate copy for  
Docket No. 50-302  
microfiche

## Appendix A

1. 10 CFR 20, Standards for Protection Against Radiation
2. NRC Regulatory Guide 8.15, Acceptable Programs for Respiratory Protection
3. NUREG-0041, Manual of Respiratory Protection Against Airborne Radioactive Materials
