Mr. Eisenhut,

Please do as much as possible to stop the construction of the Lincoln nuclear power plant. It's not worth it! The plant site is too near densely populated areas, posing much too great a threat ~~to~~ a large number of Americans. It is too costly a project, in dollars and in the anxiety of human suffering. ~~It~~ It seems that alternative energy sources, wind, solar, geothermal, natural gas, coal + human power can safely, efficiently + cheaply supply the nation's energy needs, at least as successfully as nuclear can. ~~Take the~~ ^{at least} ~~tempt~~ ~~to~~ ~~try~~ ~~to~~ ~~find~~ ~~out~~.

I can see a future where nuclear power is the main source for a world's huge energy ~~concerns~~. It is not now, we don't ^{as a society} have the emotional maturity to safely deal w/ such a powerful energy. Too many place their own self misguided obsessive ~~concerns~~ needs for money and power over the concerns of human life + well-being. Therefore, the occurrence of small but dangerous errors which could lead to huge ~~the~~ catastrophes could easily occur.

Today, the symbol of a 'nuclear-secure America' represents a one-sided, an out-of-hand, one-sided, patriarchal way of dealing w/ our own existence. We need to stop raping the Earth and each other (in spirit, mind + body). We must turn the plight of our world around. We have to stop aggressing, taking, measuring, killing + brutally plunging ourselves headlong into oblivion. It is time for each one of us to stand up for what we know is right. Let's make the world beautiful + bright + peaceful!!! Stopping the construction of the Lincoln power plant + the ~~in~~ ~~fact~~ ~~heart~~ ~~of~~ ~~nuclear~~ ~~energy~~ ~~production~~ is what you can begin to do. Eisenhut. Gift money can do it. Please. ~~Let's~~ ~~make~~ ~~the~~ ~~world~~ ~~beautiful~~ ~~+~~ ~~bright~~ ~~+~~ ~~peaceful~~ ~~!!!~~
