Mr. Gregory L. Becker
Long Green, Maryland 21092

Dear Mr. Becker,

Thank you for your letter of April 30, 1980 which expresses your concerns about the arrangements made for our recent meeting at Peach Bottom and also your concerns regarding emergency planning.

I am enclosing a copy of our reply to Senator Sarbanes which covers a similar concern regarding the arrangements made for our April 24, 1980 meeting at the Peach Bottom site. You will also note in our reply to the Senator that FEMA will hold a meeting on emergency planning sometime later this year at which time you will again have the opportunity to relate your observations and recommendations regarding offsite emergency preparedness around the Peach Bottom plant.

Your letter indicates that you have just begun a preliminary study on the subject of emergency response for the Peach Bottom environs. To assist in your efforts, I am enclosing copies of NUREG-0654 and NUREG-0396 which provide in-depth background material and also address your concerns regarding plan development, event reporting, funding, emergency planning zone rationale, and required notification procedures.

Furthermore, your comments will be considered in the preparation of the final version of NUREG-0654 and we have also forwarded a copy of your letter to the FEMA regional office which has the responsibility for evaluating the offsite response planning around the Peach Bottom facility.

We welcome any additional comments that you may have upon completion of your study which may be of use in our evaluation of the Peach Bottom emergency plans.

Sincerely,

Brian Grimes, Program Director
Emergency Preparedness Program Office
