Mr. Thomas Dattilo, Esq.
311 East Main Street
Madison, Indiana 47250

Dear Mr. Dattilo:

On May 23, 1980, the Office of the Secretary referred Save the Valley's "Additional Comments to Commissioners Concerning Resumption of Work at Marble Hill" (docketed with the Commission on May 14, 1980) to the NRC Staff for treatment pursuant to 10 CFR 2.206 of the Commission's Regulations. This document also incorporates by reference comments docketed on May 7, 1980.

The Staff will be reviewing these two documents to determine whether additional enforcement measures or other action is appropriate on the basis of the matters raised by the Save the Valley. The documents raise issues in two basic categories: (1) deficient construction practices and corrective actions at Marble Hill and (2) seismic features of the Marble Hill site. With respect to construction deficiencies, you attached several affidavits which you believe should be reviewed to determine whether this office would have confidence that Public Service Company of Indiana's quality assurance and control program is adequately rehabilitated. I note that these affidavits have been previously considered by the Office of Inspection and Enforcement in its investigation and actions on Marble Hill's construction deficiencies. Mr. Cutshall's affidavit was specifically referenced in my order of August 15, 1979, which confirmed the suspension of safety-related construction at Marble Hill. Nonetheless, the Staff will review these affidavits and issues raised in Save the Valley's filings to determine whether further action is warranted regarding construction problems and corrective measures. The NRC Staff will also review the issues concerning seismicity of the Marble Hill site.

Accordingly, appropriate action will be taken on Save the Valley's submittals within a reasonable time as provided in 10 CFR 2.206. I enclose for your information a copy of the notice that will be filed for publication with the Office of the Federal Register.

Sincerely,
"Original Signed By
R. C. DeYoung"

Victor Stello, Jr.
Director
Office of Inspection
and Enforcement

Nuclear Regulatory Commission
 (Docket Nos. 50-546 & 50-547)

Public Service Company of Indiana, Inc. et al.
 (Marble Hill Nuclear Generating Station, Units 1 & 2)

REQUEST FOR ACTION UNDER 10 CFR 2.206

The Commission has referred a document docketed on May 14, 1980, to the NRC Staff for consideration under 10 CFR 2.206 of the Commission's regulations. The document, which was filed by Thomas Dattilo on behalf of Save the Valley, is entitled "Save the Valley Additional Comments to Commissioners Concerning Resumption of Work at Marble Hill". Another document, docketed on May 7, 1980, is incorporated by reference. Save the Valley requests that certain information and affidavits be reviewed to assure the NRC has confidence that Public Service Company of Indiana's quality assurance and control program is properly rehabilitated. Save the Valley also asks that the Commission consider whether further study of seismic information should be made for the Marble Hill site.

Appropriate action will be taken on Save the Valley's submittals within a reasonable time as provided under 10 CFR 2.206. Copies of the submittals are available for inspection in the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C. 20545 and in the local public document room at the Madison-Jefferson County Public Library, 420 West Main Street, Madison, Indiana 47250.
