Mr. Dennis M. Crutchfield, Chief
Operating Reactors Branch #5
Division of Licensing
Nuclear Regulatory Commission
Washington, DC 20555

Refer To: NUREG-0686
Docket 50-10, draft
Environmental Statement,
Cooling System, Dresden
Plant No. 1, IL

Dear Sir:

We anticipate no significant effect on forested land from the decontamination projects. Shutting down the reactor, on the other hand, would result in construction of an alternative plant, with considerable effect on vegetation.

Sincerely,

WILLIAM G. HERBOLSHEIMER
Acting Assistant Area Director
Forest Insect and Disease Management
