HARRIET KEYSERLING

ROBERT R. WOODS

The Honorable Richard T. Kennedy  
 Office of the Commissioner  
 U.S. Nuclear Regulatory Commission  
 Washington, D. C. 20555

Dear Mr. Kennedy:

On behalf of all the members of the Joint Legislative Committee on Energy, I want to express my deep appreciation for your assistance to us in our hearings last fall on emergency radiological response planning, radiation environmental monitoring programs and the highway transportation of radioactive materials in South Carolina.

I believe that the findings and recommendations presented to the Committee during this process will serve as a basis for positive and constructive improvements in these areas.

The staff has finished a draft report of our hearings and is currently finalizing the conclusions and recommendations. Please let us know whether you would like a copy of the final report, and we shall be happy to send one to you.

With kind regards, I remain

Very truly yours,

Allen R. Carter  
 Chairman
