This responds to your letter of March 14, 1980 concerning your continued use of a specific type of shotguns at your Canoga Park, California facility.

In consideration of the site-specific rationale for using the specified type of shotguns, as presented in the above referenced letter, this will confirm our earlier determination (as contained in our letter of May 13, 1977) that those particular shotguns are suitable for employment at your Canoga Park site. Accordingly, we find them to be acceptable for continued use at that location, in lieu of the type of shotguns prescribed by Section IV C, Appendix B, 10 CFR Part 73.

This letter also serves to correct administrative errors contained in License Condition 9.A.1.A by amending Section 9.0 of your License No. SIM-21, by withdrawing that license condition and reissuing it as contained in the enclosure to this letter, to become effective immediately. This revised license condition also incorporates into your Canoga Park Security Plan the page change submitted by your March 14, 1980 letter to appropriately reflect the specific type of shotguns which are approved for use at that facility.

We have determined that your letters of November 30, 1979 and March 14, 1980 and the enclosures contain information of a type specified in 10 CFR Part 2.790(d). Accordingly, they are deemed to be commercial or financial information within the meaning of 10 CFR Part 9.5(a)(4) and shall be subject to disclosure only in accordance with the provisions of 10 CFR Part 9.12.

Sincerely,

Original Signed by G. W. McCorkle
