

June 1, 1980

Mr. Lawrence J. Chandler
Counsel For Nuclear Regulatory Commission
U. S. Regulatory Commission
Washington C. C. 20555

Dear Mr. Chandler:

I must apologize for the delay in returning the information requested of you concerning U S Air flight 170 on January 24, 1980. This is in response to our previous phone conversation and your subsequent letter of April 29, 1980.

Referring to lines 11 & 12 of page 608 on the hearing transcript you included with you letter.

I can assure you regardless of Dr. Johnsrude's assertion, I did not receive an inquiry from her or any other deplaning passengers about flying over TMI on the above trip in question.

Also, I did not operate flight #170 on this date directly over the nuclear facility on Three Mile Island

I hope this lays to rest any problems your staff has with this flight.

Sincerely,

Robert S. Hayhurst
