

**Florida
Power**
CORPORATION

July 30, 1980

File: 3-0-3a

Mr. Robert W. Reid
Branch Chief
Operating Reactors Branch #4
Division of Operating Reactors
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Subject: Crystal River Unit 3
Docket No. 50-302
Operating License No. DPR-72
NUREG-0578, Short Term Lessons Learned Recommendations

Dear Mr. Reid:

This letter is to request that Florida Power Corporation be given relief from the Safety Evaluation Report on the NUREG 0578 items dated May 5, 1980, where it identifies that in the short term Florida Power must utilize temporary OTA's who have SRO's.

All of our OTA's have SRO licenses except Mr. Sam Johnson, who has an RO License. Mr. Johnson has a Bachelor's Degree in Engineering, is a member of the ASME Section XI Committee, and has five years of Nuclear Power Plant experience and four years Fossil Plant experience. In addition, he has completed a training course for our temporary OTA's which consisted of one week of on-site classroom instruction and two weeks of Technical Advisor Classroom/Simulator Training at Babcock and Wilcox in Lynchburg, Virginia. Mr. Johnson has demonstrated his ability both at simulator and in-plant and Florida Power Corporation feels that his qualifications and experience compensates for the SRO requirement in our Safety Evaluation Report, and that he is fully qualified to perform the temporary OTA function.

July 30, 1980

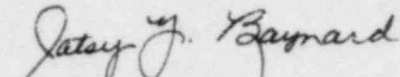

Florida Power Corporation currently has six temporary OTA's with SRO's. If Mr. Johnson is given credit we would have seven temporary OTA's. This would allow us increased flexibility since the personnel filling the temporary OTA positions also fulfill the job responsibilities of their normal positions. In addition, these personnel will need to fill these positions until the permanent OTA's complete their training and assume the permanent positions on January 1, 1982.

It is requested that this matter be considered as soon as possible to give us greater flexibility in scheduling these personnel.

If you require any additional discussion concerning this matter, please contact this office.

Very truly yours,

Florida Power Corporation

P. Y. Baynard

P. Y. Baynard
Manager
Nuclear Support Services

Morrison(T10)D1-2

STATE OF FLORIDA
COUNTY OF PINELLAS

P. Y. Baynard states that she is the Manager, Nuclear Support Services Department of Florida Power Corporation; that she is authorized on the part of said company to sign and file with the Nuclear Regulatory Commission the information attached hereto; and that all such statements made and matters set forth therein are true and correct to the best of her knowledge, information and belief.

P. Y. Baynard
