July 24, 1980

Director of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D. C. 20555

Attention: Mr. Darrell G. Eisenhut, Director
Division of Licensing

Gentlemen:

REQUEST FOR INFORMATION REGARDING EVACUATION TIMES
HOPE CREEK GENERATING STATION
DOCKET NOS. 50-354 AND 50-355

Your letter of July 2, 1980 requested information regarding evacuation time estimates for the Hope Creek Generating Station. Your letter also indicated that separate time estimates need not be submitted for units sharing the same site.

Our letter of January 31, 1980, included evacuation time estimates provided to us by the State of Delaware.

On July 17, 1980, PSE&G submitted a revised Emergency Plan in conformance with NUREG-0654 which included evacuation time estimates for New Jersey. Both the January 31, 1980 and July 17, 1980 submittals were for our Salem Nuclear Generating Station, Docket Nos. 50-272 and 50-311.

Very truly yours,

R. L. Mittl
