SUBJECT: Submittal of Geophysical Logs

Dear Mr. Miller:

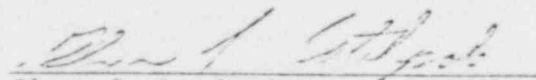

Ogle Petroleum Inc. herewith submits the geophysical logs requested by the NRC during a meeting in your offices on July 29, 1980. These are the same logs that have been forwarded to the Wyoming Department of Environmental Quality. The enclosed logs contain proprietary information; and as such, it is requested that the NRC handle the logs as confidential material.

It is requested that these logs be routed to Ms. Terry VanDell as soon as possible so that she may begin her study of the information.

Thank you very much for your assistance with this matter.

Sincerely,
