SACRAMENTO MUNICIPAL UTILITY DISTRICT □ 6201 S Street, Box 15830, Sacramento, California 95813; (916) 452-3211

June 26, 1980

Mr. R. H. Engelken, Director  
Region V Office of Inspection & Enforcement  
U. S. Nuclear Regulatory Commission  
1990 North California Boulevard  
Walnut Creek Plaza, Suite 202  
Walnut Creek, California 94596

Re: Operating License DPR-54  
Docket No. 50-312  
IE Bulletin 80-10

Dear Mr. Engelken:

In response to your letter of May 6, 1980, which transmitted the subject IE Bulletin, the Sacramento Municipal Utility District is hereby submitting the required response.

In accordance with item 1 of the bulletin, the District has reviewed the Rancho Seco facility design and operation to identify systems considered as nonradioactive which could possibly become radioactive through interfaces with radioactive systems. A list of those systems identified along with the applicable interface component has been compiled.

In accordance with item 2 of the bulletin, utilizing the above-mentioned list, a study of a practical sampling program to promptly identify any contaminating events which could lead to unmonitored or uncontrolled releases has been completed. Said program will be effected by additions or changes to the Chemistry and Radiochemistry manuals.

Respectfully submitted,

Handwritten signature of J. J. Mattimoe in cursive.

J. J. Mattimoe  
Assistant General Manager  
and Chief Engineer
