Attention: Mr. James G. Partlow, Chief
Material Control & Accountability Licensing Branch
Division of Safeguards

Gentlemen:

Combustion Engineering, Inc., is forwarding copies of its revised Fundamental Material Control Program. These revisions are submitted under the provisions of 10 CFR 70.32(c) and were made in order to update the plan due to current regulations and company structure.

In updating these procedures, current license conditions (SNM-1067-MPP4) were incorporated into the plan. A cross reference to this implementation is contained in this submittal.

The following requests discussed in some of your recent letters have also been incorporated into the plan. These comments refer to:

<u>NRC Letter</u>	<u>Topic</u>	<u>Reference</u>
July 6, 1979	Inventories	Chapter 5 - Inventories Section 5.1 - Inventory Requirements
January 25, 1980	Book Balance	Chapter 5 - Inventories Chapter 6 - Material Accounting System Section 5.13 and 6.4 Book vs. Physical Balances
February 18, 1980	Timely Reporting and Response Action	Chapter 1 - Organization Section 1.2.4 - Audits & Reviews

Very truly yours,

H. V. Lichtenberger
Vice President - Nuclear Fuel
Nuclear Power Systems Division
