PEACH BOTTOM, PA. 17563
AUG. 31, 1979

JOSEPH M. HENDRIE, CHAIRMAN
U.S. NUCLEAR REGULATORY COMMISSION
WASHINGTON, DC. 20555

DEAR MR. HENDRIE,

I STRONGLY PROTEST ALL PROPOSALS
OF RADIOACTIVE RELEASES FROM TMI.
THERE IS SUFFICIENT EVIDENCE THAT THE
EFFECTS OF RADIATION ARE LONG-LASTING AND
CUMULATIVE. CAN BE CONCENTRATED BY NATURE
THROUGH THE FOOD CHAIN; AND PRESENT SERIOUS
AND FAR REACHING PROBLEMS TO OUR HEALTH
AND ENVIRONMENT.

IT IS OBVIOUS TO ME THAT THE WELL
BEING OF THE PUBLIC IS OF NO CONCERN
TO MET ED. THEIR RECENT ACTIONS
CONCERNING THE PROPOSED USE OF
EPICOR II PROVES THIS. RESEARCH SHOWS
THAT THERE IS NO WAY TO COMPLETELY
PURIFY RADIOACTIVE WATER WASTE.

TO LIE OR PRETEND THAT THIS
CONSTITUTES NO THREAT TO OUR
HEALTH FOR THE SAKE OF THE "ALMIGHTY
DOLLAR" IS A MORAL OUTRAGE.

A GREAT DEAL IS AT STAKE HERE —
OUR ENVIRONMENT, OUR HEALTH, AND
THE WELL BEING OF FUTURE GENERATIONS.
MTCED HAS 'COCKED ITS OWN GOOSE'
THROUGH ITS PAST DECISIONS AND METHODS
OF OPERATION AND THE SURROUNDING
COMMUNITIES HAVE PAID ENOUGH
ALREADY. I STRONGLY URGE THAT THE
N.R.C. DOES NOT ALLOW MTCED TO
CLEAN UP ITS PROBLEMS AT OUR
(FINANCIAL, PHYSICAL OR EMOTIONAL)
EXPENSE!

SINCERELY,
GAIL JAMES
