XR 0131, Amend 1  
50-594

Mr. James R. Shea  
Director of International Programs  
United States Nuclear Regulatory Commission  
Room 6714 - MNBB  
Bethesda, Maryland

Dear Mr. Shea:

This letter is in response to the letter from your office dated May 6, 1980, requesting Executive Branch views as to whether amendment of an export license in accordance with the application hereinafter described would be inimical to the common defense and security of the United States and whether the proposed export meets the applicable criteria of the Atomic Energy Act of 1954, as amended by the Nuclear Non-Proliferation Act of 1978 (P.L. 95-242):

NRC No. XR-131 -- Application by Westinghouse Electric Corporation to amend license XR-131 authorizing export of two 950 megawatt electric pressurized water reactors to Korea to include Hyundai Heavy Industries Co. Ltd. Kyungnam, Korea as an intermediate consignee for additional processing of certain reactor parts prior to delivery at the job site.

The proposed export to the additional intermediate consignee would take place pursuant to the Agreement for Cooperation Between the United States and Korea as confirmed in a letter from the Embassy of Korea, a copy of which is enclosed. Korea has adhered to the provisions of its Agreement for Cooperation with the United States.

The Executive Branch has reviewed this application and concluded that the requirements of the Atomic Energy Act and P.L. 95-242 have been met and that the proposed export to the additional intermediate consignee will not be inimical to the security of the United States. A de-

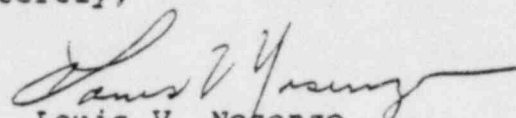

8008080

036

tailed analysis is believed unnecessary in this case because of the minimal change to the terms and conditions of the original export license.

On the basis of the foregoing, the Executive Branch recommends that the amendment be issued.

Sincerely,

Louis V. Nosenzo  
Deputy Assistant Secretary

Dear Mr. Hudgins :

This is referred to the application S-993 (XR-131) dated on May 8, 1978.

We confirm that the Hyundai Heavy Industries Co. Ltd, the intermediate consignee, has been authorized by the Government of the Republic of Korea to receive the equipment as identified on the application.

Sincerely yours,

  
Young Soung Hahn
