Docket No. 50-320

JUL 28 1980

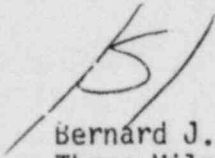

THIS DOCUMENT CONTAINS
 POOR QUALITY PAGES

Martin Wahlen, Ph.D.
 Division of Laboratories and Research
 New York State Department of Health
 Empire State Plaza
 Albany, New York 12201

Dear Dr. Wahlen:

Thank you for your offer to provide environmental radiation monitoring services during the decontamination of the Three Mile Island Unit 2 Reactor Building. As you know, the purging of the building atmosphere was completed on July 11, 1980. Section 8 of the "Final Environmental Assessment for Decontamination of the Three Mile Island Unit 2 Reactor Building Atmosphere" discusses the radiological environmental monitoring program which provided adequate coverage. A more complete description is given in the EPA report, "Long-Term Environmental Radiation Surveillance Plan for Three Mile Island," March 17, 1980. Both documents are enclosed for your information.

Sincerely,

Bernard J. Snyder, Program Director
 Three Mile Island Program Office
 Office of Nuclear Reactor Regulation
