DOCKET NUMBER  
PROPOSED RULE PR-Misc Notice  
Reg Guide

July 16, 1980

Secretary of the Commission  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555  
ATTN: Docketing and Service Branch

Dear Sir/Madam:

I have had an opportunity to review the draft regulatory guide "Instruction Concerning Risk from Occupational Radiation Exposure."

I feel that the proposed guide is a document that will be effective in increasing understanding about the biological effects of ionizing radiation. I thought that sections dealing with cancer risks from radiation exposure were particularly well done.

It is recommended that a regulatory guide based on the publication be prepared and issued for the purpose of providing instructional material concerning an assessment of risk from occupational radiation exposure.

Very truly yours,
