Dear Vic:

Enclosed is the original of the non-proprietary version of the final report on the Steam Generator Water Hammer work done at BNL. The original NRC Form 426A is also enclosed. Please make sure that an appropriate distribution category number is assigned to the report.

As you know, NRC will print and distribute this report. I should appreciate receiving 50 copies of the report as soon as it is printed. Please contact me if I can be of any help in the future.

Sincerely yours,

Pradip Saha
