Docket No. 30-04691

JAN 15 1980

James River Rochester, Inc.
Adams Division
ATTN: Robert Donaldson
Technical Director
115 Howland Avenue
Adams, Massachusetts 01220

License No: 20-10505-01
Expiration Date: November 30, 1978

Gentlemen:

SUBJECT: NOTICE OF EXPIRED LICENSE

This refers to the telephone discussion between Mr. B. O'Neill of this office and yourself on January 3, 1980. The subject of the discussion was the fact that NRC records show that the Byproduct Materials License identified above has expired and no renewal application has been filed in accordance with Section 30.37 of Title 10, Code of Federal Regulations, Part 30.

From our discussion with your representative we learned that you still possess material which requires a specific NRC license. Your possession of that material without a valid, specific license is a violation of Section 30.3 of 10 CFR Part 30. Section 30.3 states:

§30.3 Activities requiring license. Except for persons exempt as provided in this part and Part 150 of this chapter, no person shall manufacture, use, import or export byproduct material except as authorized in a specific or general license issued pursuant to the regulations in this chapter.

This Notice of Violation is sent to you under the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Section 2.201 requires you to submit a written reply to this notice explaining the steps you have taken to correct this situation. The corrective actions you take must include the following:

1. Divest yourself of the material immediately, in a lawful manner, and prepare a statement which explains the method of disposal of the materials, including: what material was involved, how it was disposed of or to whom it was shipped, and when this was done.

8008110 668

JAN 15 1980

2. If the activities conducted under the expired license were subject to the reporting requirements of 10 CFR Part 20, Section 20.407, you must submit the annual report required by 20.407 for the current calendar year and a termination report required by Section 20.408 for individuals engaged in activities under the expired license. Those reports must be submitted to the Director of Management and Program Analysis, U. S. Nuclear Regulatory Commission, Washington, D.C. 20555.

Your reply to this Notice of Violation shall be sent, within twenty (20) days of the receipt of this letter, to Region I, U. S. Nuclear Regulatory Commission, 631 Park Avenue, King of Prussia, Pennsylvania 19406, Attention: Mr. R. O. McClintock, Chief, Materials Radiological Protection Section, Fuel Facilities and Materials Safety Branch. The reply must include a copy of the statement and reports required by the items above.

We request that you give prompt attention to these matters. Should you have any questions regarding them, we would be pleased to discuss them with you.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and your reply will be placed in the Public Document Room.

Sincerely,

Robert O. McClintock, Chief
Materials Radiological Protection
Section
