and 50-330

Honorable Philip A. Hart
United States Senate

Dear Senator Hart:

Your letter of November 2, 1971, to Chairman Schlesinger concerning the Midland Nuclear Power Plant, has been referred to me for reply. I have enclosed for your information a status report on the Midland plant application which shows that we have received and are evaluating the technical and environmental information that was requested of Consumers Power Company. Please be assured that the necessary evaluations are being conducted on a priority basis to minimize the review time required.

If I may be of further assistance on this matter, please let me know.

Sincerely,
