Dr. Glenn T. Seaborg, Chairman
United States Atomic Energy Commission
Washington, D. C. 20545

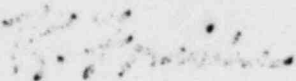

Dear Dr. Seaborg:

I invite to your attention the urgency for prompt action on the approval of a construction permit sought by the Consumers Power Company of Michigan for a nuclear energy plant in Midland. The plant would supply desperately needed electrical power to the State of Michigan and to the Dow Chemical Company, an employer of approximately 7200 hourly and 4000 salaried people in the Midland area. The project has been unduly delayed by the action of a minority and its backers.

Michigan economy cannot afford to lose the major portion of jobs at stake. The nuclear energy plant in Midland represents an outlay of over \$500,000,000 in construction and thousands of jobs, directly and indirectly, in addition to the widespread stimulus it will give to the state.

I prevail upon you to use your power, influence and authority in helping to secure the construction permit.

Sincerely,

RICHARD FRISKE
State Representative
