Docket No. 50-329-330

SEP 14 1977

Mrs. Alma FitzGibbons  
Grace Dow Memorial Library  
1710 W. St. Andrews Road  
Midland, Michigan 48640

Dear Mrs. FitzGibbons:

We are sending under separate cover the first portion of the Consumers Power Company's, Midland Nuclear Power Station, "Tendered Application" for an operating license, which was submitted on August 29, 1977. This portion of the "Tendered Application" will be given an acceptance review by the NRC Staff. If found acceptable, a "Formal Application" will be submitted in about 30 or 40 days.

The first portion of the "Tendered Application" consists of the following:

1. Application (General Information) - 1 volume
2. Final Safety Analysis Report (FSAR) - volumes 1 - 18  
NOTE: Security Plan withheld from public disclosure pursuant to 10 CFR 2.790.

Please file this material directly behind the old PSAR already on file at your library.

It is anticipated that the remaining portion of the "Tendered Application", consisting of the Environmental Report, will be submitted in March 1978.

We will keep you abreast of developments as they occur.

If you have any questions or difficulties with this material, please feel free to contact us.

Sincerely,

Jona L. Souder, LPDR Coordinator  
Local Public Document Room Branch  
Division of Rules and Records  
Office of Administration
