Ms. Mary Sinclair  
3711 Somerset Street  
Midland, Michigan 48640

In the Matter of  
Consumers Power Company  
(Midland Plant, Units 1 and 2)  
Docket Nos. 50-329 & 50-330

Dear Ms. Sinclair:

This will acknowledge our telephone conversation of Thursday, July 31. Please excuse my delay; the press of business has kept me from responding until now.

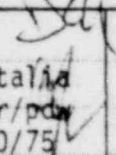

In accordance with our conversation I am enclosing the following:

- (1) A copy of the Commission's Regulations, "Emergency Plans for Production and Utilization Facilities" (Appendix E to 10 CFR Part 50);
- (2) A copy of the Commission's "Guide to the Preparation of Emergency Plans for Production and Utilization Facilities";
- (3) A copy of pp. 69-71 from the Midland Safety Evaluation Report; and
- (4) A copy of the Commission's "Provisional Decision" regarding plutonium recycle.

You also asked a number of questions regarding the Big Rock facility. I understand you have since spoken with Mr. Kartalia who has answered those questions. Mr. Kartalia has informed me that you also asked him how many reactors, in addition to Big Rock, either have in the past used, or at present are using, plutonium fuel. I have checked with the appropriate staff members, who have told me that Saxton, San Onofre 1, Quad Cities, and Dresden 1 fall within this category.

Sincerely,

Albert V. Carr, Jr.  
Counsel for NRC Staff
