

June 6, 1980

Gentlemen:

I guess I knew everyone would vote to vent the krypton from TMI however, I thought it had been decided it was better to vent it over a short period of time rather than the 60-day plan.

Many of us can't let our children here during hot, muggy days of venting after what they've already been exposed to. How can we afford to stay away for 60 days?

Please help us!

Sincerely,

*B. Holcombe*
