DOCKET NO. 50-346

AUG 5 1980

Toledo Edison Company
Attn: Mr. Richard P. Crouse
Vice President, Nuclear
Edison Plaza
300 Madison Avenue
Toledo, Ohio 43652

Gentlemen:

We have received a copy of your application dated March 4, 1980, which your Company filed with the Office of Nuclear Reactor Regulation (ONRR) for review. The application requested a modification to License Condition 2.C(3)(r) of License No. NPF-3 relating to seismic reevaluation for the Davis Besse Unit No. 1. Your application was accompanied by a Class II amendment fee of \$1,200.

Based on information provided by the ONRR staff as a result of a preliminary review of the above application, it has been determined that this application (which will also include the review as required by the above license condition of the seismic reanalysis submitted on July 9, 1979) involves a single safety issue. Therefore, a Class III fee is applicable. It is requested that your Company remit an additional sum of \$2,800 to this office. If in the final review of your application by the ONRR staff it is determined that this fee is incorrect, an adjustment will be made.

Sincerely,

A handwritten signature in cursive script that reads "Reba M. Diggs".
