Mr. Darrell G. Eisenhut, Director
Division of Project Management
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Eisenhut:

Reference: Enrico Fermi Atomic Power Plant, Unit 2
NRC Docket No. 50-341

Subject: Evacuation Time Estimates
Letter to all Applicants,
D. G. Eisenhut, July 2, 1980

Your letter requests that Detroit Edison submit evacuation time estimates for the area around the Fermi 2 site by August 1, 1980. Edison has just initiated an independent study to develop the requested information for Fermi 2 as part of the preparation of the Monroe County Emergency Preparedness Plan. Consequently, evacuation time estimates will not be available by August 1, 1980 as requested. At the present time there is no data available other than that prepared by Wilbur Smith and Associates under contract to FEMA.

When the evacuation routes have been established and the time estimates developed, the information will be sent to your attention. We anticipate an estimated completion date of December 15, 1980.

Very truly yours,

3001
