MEMORANDUM FOR: The Files

FROM: R. Neal Moore
Senior Licensing Officer
Office of International Programs

SUBJECT: FINDINGS RELATED TO THE PROPOSED IMPORT OF LOW-ENRICHED
URANIUM BY TRANSNUCLEAR - ISNM80005

Transnuclear, Incorporated submitted an application dated July 7, 1980 for a license authorizing the import of 40,000 kilograms of uranium, as UF₆, enriched to 1.0%. The shipment will consist of five 48Y cylinders from Comurhex in France to Oak Ridge, Tennessee.

This request is essentially the same as previous requests to import low-enriched UF₆, for example, ISNM780017, and represents no material change in circumstances from conditions and findings which existed at the time of the earlier imports. Consequently, it is recommended that this license be issued.
