Attention: Mr. Karl V. Seyfrit  
Director

Dear Sir:

Subject: IE Bulletin No. 79-19 dated August 10, 1979

License No. SUB-1283 issued for the possession of Depleted Uranium in the form of x-ray shielding medium does not permit the user to process or generate any low-level radioactive waste.

However, we do have a current set of DOT and NRC regulations concerning the packaging, transfer and transporting of the same. No changes in the present program are proposed.

Very truly yours,

DAY & ZIMMERMANN, INC.
