

DEPARTMENT OF THE AIR FORCE  
HEADQUARTERS 508 TACTICAL FIGHTER GROUP (AFRES)  
HILL AIR FORCE BASE, UTAH 84056

REPLY TO  
ATTN OF:

MA

26 September 1979

SUBJECT:

NRC Requirements for Disposal of Radioactive Wastes

TO: Director of National Regulatory Commission  
Regional Office IV  
611 Ryan Plaza Drive  
Suite 1000  
Arlington, TX 76012

In response to the NRC Office of Inspection and Enforcement Bulletin #79-19 dated 10 August 1979 the following items required at this organization are submitted by item number from the above bulletin.

1. Item 3a: 508 TFG personnel assigned primary responsibilities of packaging and transporting materials (low level Magnesium Thorium waste generated from repair of F-105B deceleration chute compartment doors) are SMSgt Keith L. Cheney, USAFR; TSgt Delmont W. Goff, USAFR.
2. Item 3b: R.P.O. is Capt R. Carmichael, Bio-environmental Officer, Ogden ALC (00-ALC/SGB).
3. Item 3c: Transportation Officer of Host Activity is Mr L. Seriven (00-ALC/DSTMPA).
4. Item 7: Unit Auditor of packaging and transfer assigned to Capt Richard Youngberg (508/SEG).
5. Item 8: An audit is programed to be accomplished prior to 10 October 1979.
6. Item 9a: Two partially filled containers of approximately 3 cubic feet capacity have been processed by this unit since receipt of license.
7. Item 9b: Total contaminants for both shipments, serial number 508-121-1 and 508-121-2, was 5.0 microcurries.

8448140274

8. Item 9c: N/A. No liquid waste has been generated.

FOR THE COMMANDER

HERRICK M. DRAKE, COL, USAFR  
Deputy Commander for Maintenance
