Re: Three Mile Island Hearings

Gentlemen:

Our organization urges you to hold hearings for public comment on the utility plan to ventilate radioactivity from the damaged Three Mile Island nuclear plant.

Before hearings could be used appropriately by members of the public, an environmental impact statement would need to be prepared and widely distributed.

We look forward to information from you on the availability of an environmental impact statement and public hearings at which to comment. Thank you for your courtesy, your interest, and your concern.

Sincerely yours,

Faith Young
