Middletown, Penna. 17057

Gentlemen:

It has been brought to my attention that a meeting is to be held near TM on the venting question in the second week of April.

I am a student of Engineering at Penn State Capitol Campus in Middletown, and would like very much to attend this meeting if possible.

It would be to my advantage. I feel it would be most interesting and educational.

I am unaware of the location and date of this meeting, and would be quite thankful if you would send me this information.

Thank you for your time in this matter.

Sincerely,

*John McEntee*
