

May 22, 1980

Dear President Carter,

I am writing to you about the nuclear gas that is going to be let out of 3 Mile Island next week. It will effect my children by retardation or even cancer.

Please don't let it happen because the air that we breathe will have the gas in it and it will kill off the cells resulting in stunting our growth. It will also probably get into our drinking water. The gas will spread and will most likely effect my

POOR ORIGINAL

Sincerely,
Someone it will effect,
Judith Smart
of 214 Parkside Ave.
