

# POOR ORIGINAL

Mrs. John M. Reinhart

4403 Avon Drive, Harrisburg, Penna. 17112

March 13, 1980

Chairman Abernethy,

Our family lives 14 miles from the Three Mile Island Nuclear Reactor Plant and after almost one year of frustration with MDT-Cd, I would like to go on the record as totally opposing the further venting of Krypton gas into the atmosphere. Any additional amount is too much.

In addition, I oppose the dumping of the contaminated water into the Susquehanna River and the licensing of anyone to mine uranium in Pennsylvania.

Please use our technology to find alternative methods to solve these problems.

Sincerely,  
Wally Reinhart
