MEMORANDUM FOR: Norman M. Haller, Director  
Office of Management and Program Analysis

FROM: Harold R. Denton, Director  
Office of Nuclear Reactor Regulation

SUBJECT: STATUS OF TMI ACTION PLAN ITEMS

References:

1. Memorandum from N. M. Haller to H. R. Denton, et al., "TMI Action Plan Tracking," July 10, 1980
2. Memorandum from R. J. Mattson to S. H. Hanauer, et al., "Periodic Status Reports for TMI Action Plan Items," Aug. 01, 1980

This memorandum is in response to Reference 1 which requested that we provide certain information to assist tracking of the TMI Action Plan by the Office of Management and Program Analysis (MPA). The information required consisted of: a) a compilation of those action plan items being worked on, b) the dates that each activity will be complete, and c) identification of originally planned accomplishments that were deferred because of resources transferred to the Action Plan.

To obtain the information requested, we are establishing a periodic reporting system to assess the status of each action plan item assigned to items (a) and (b), and an overall summary of the status of each item. The initial survey from the Responsible Individuals assigned to each item is expected by August 15, 1980.

The information to be obtained in these surveys was discussed among members of the NRR Planning and Program Analysis Staff, MPA, and the Generic Issues Branch. During these discussions, a list of action items requested in item (a) was provided to the MPA representatives. The information requested under item (b) will be forwarded to MPA as the survey summaries are obtained.

It is anticipated that the TMI Action Plan status summaries will be updated at three-month intervals.

Enclosure 3 of SECY-80-230, subject: TMI-2 Action Plan, identifies the specific planned accomplishment and associated resources that are being deferred in FY 1980 in order to initiate TMI Action Plan effort.
