4-320

Dear President;

Enclosed you will find a duplicate letter which I sent to the Regional Director overseeing the Three Mile Island Nuclear Power Plant. This letter expresses clearly and strongly, my opposition to the release of radioactive gases from the facility. This release benefits no one, bringing only hazard and danger to those living in the area.

You see, I RESIDE IN THE AREA. The release of the radioactive gases will affect ME and MY FAMILY. Would you release the gases if YOUR FAMILY was there? THINK ABOUT IT.

Reconsider the release of the gases. THE PEOPLE DESERVE AT LEAST THAT MUCH.

Thank you very much for all of your time.

Sincerely,

Cheryl A. Beck Wetzel
