Ref: Docket #99900297/80-01

Subj: Response to Findings Under the Referenced Docket
Number for the Audit Conducted April 22, 1980

Gentlemen:

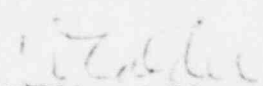

Mr. J.W. Graham passed your letter and attachments on to me for handling. The attached documents have addressed the deviations noted providing a plan of action, a completion date, as well as the steps taken to prevent reoccurrence.

In this instance the deviations were referred to the General Manager of the Foxboro and Mansfield Systems Operations. He is cognizant of the deviations and has participated in their resolution and assumed the responsibility to make sure that the corrective actions are carried out.

We trust that you will find the attached material both responsive and complete. If you have any ensuing questions you may contact me directly.

Very truly yours,

THE FOXBORO COMPANY

William Calder, Manager
Corporate Quality Assurance
