

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

DCS
40-8304

JUL 29 1980

Wyoming Mineral Corporation
ATTN: Mr. Karl R. Schendel, Manager
Licensing Administration
Government and Environmental Affairs
3900 South Wadsworth Blvd.
Lakewood, CO 80235

Gentlemen:

Enclosed is Source Material License SUA-1204 which has been revised in its entirety and is hereby renewed for a five year period expiring July 31, 1981. This renewed license authorizes possession only of source material. It does not authorize any additional R & D studies and is being issued solely to allow WMC to defer restoring those R & D well field patterns at the Irigaray site which have not been previously incorporated into Source Material License SUA-1341.

You will note that the revised conditions for the renewed license have deleted reference to all claims other than the Irigaray claim. In addition, the license conditions require WMC to continue monitoring the Irigaray R & D well field patterns and evaporation ponds.

If you have any questions regarding this license, please call me or contact R. S. Kaufmann at 303-427-4539.

FOR THE NUCLEAR REGULATORY COMMISSION

A handwritten signature in cursive script, appearing to read "Ross A. Scarano".

Ross A. Scarano, Chief
Uranium Recovery Licensing Branch
Division of Waste Management
