AUG 6 1980

Baltimore Gas and Electric Company
Attn: Mr. A. E. Lundvall, Jr.
Vice President - Supply
P.O. Box 1475
Baltimore, Maryland 21203

Gentlemen:

With your application dated June 27, 1980, which was filed with the Office of Nuclear Reactor Regulation (ONRR), you requested Technical Specification changes relating to (1) operable and (2) offsite power sources for Calvert Cliffs Unit Nos. 1 and 2. Your application was accompanied by fees for Classes II & I for item (1) and Classes III and I for item (2).

Based on the information provided by the ONRR staff, it has been determined that item (2) above involves an administrative consideration. On this basis, it only requires fees for Classes II and I; therefore, we have concurrently asked the Office of the Controller to refund a sum of \$2,800 to your Company. Refunds are generally processed within a two-week period.

If the final review of your June 27 application by the ONRR staff reveals that these fees are incorrect, your Company will be notified and an adjustment will be made.

Sincerely,

William O. Miller
