In the Matter of
Long Island Lighting Company
(Shoreham Nuclear Power Station, Unit 1)
Docket No. 50-322

Dear Mr. Latham:

This is in response to your letter to me dated August 22, 1980, requesting that SOC's consultants, MHB Technical Associates, be provided "with copies of any information given by the NRC [Staff] to other intervenors ..." in this proceeding.

With respect to copies of documents sent out by the Staff in the future, in response to discovery requests from other intervenors, I will forward your client's consultant copies of any such information provided spare copies are available to me.

As to "information from prior intervenor requests," I await the list of documents which you indicated is now under preparation. Again to the extent that spare copies are available, I will forward copies to MHB.

In those cases where I am unable to locate spare copies of discovery documents, I suggest that you contact the other intervenors or their consultants, principally ERG, to determine whether documents that they have available can be shared. Additional arrangements can be discussed at our next meeting in September.

Sincerely,

Bernard M. Bordenick
Counsel for NRC Staff
