

**Florida  
Power**  
CORPORATION

August 26, 1980

File: 3-0-5-g

Mr. M. T. Novak  
Assistant Director for Operating Reactors  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Subject: Crystal River Unit 3  
Docket No. 50-302  
Operating License DPR-72  
Site Emergency Plan

Dear Mr. Novak:

Referencing your letter of June 24, 1980, requesting Florida Power Corporation to provide a revised site emergency plan within two months, the following response is provided.

Since only minimal areas of emergency planning objectives could be addressed in this time period, due to the interface required with the State of Florida's emergency planning effort, it would not be appropriate to make a submittal at this time. The First Draft of the State of Florida's "Radiological Emergency Plan for Fixed Nuclear Facilities" will be available for Florida Power Corporation's review in mid-September 1980. Florida Power Corporation intends to review and evaluate the impact of the Final rule, "Emergency Planning", NUREG-0696, "Functional Criteria for Emergency Response Facilities", and Revision 1 to NUREG-0654; FEMA-REP-1, "Criteria for Preparation and Evaluation of Radiological Emergency Response Plans and Preparedness in Support of Nuclear Power Plants", regarding any future revisions to the site emergency plan for Crystal River Unit 3.

Florida Power Corporation does intend to address the Staff's concerns pertaining to the site emergency plan for Crystal River Unit 3.

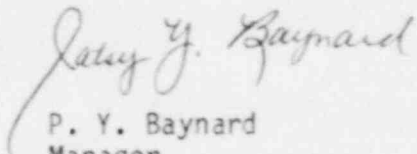

August 26, 1980

A final submittal of Florida Power Corporation's revised site emergency plan and implementing procedures will be provided in accordance with the Final rule, "Emergency Planning", as published in The Federal Register on August 19, 1980.

If you have any further questions, please contact this office.

Very truly yours,

FLORIDA POWER CORPORATION

P. Y. Baynard  
Manager  
Nuclear Support Services

LAHekcT01(DN-86-3)

cc: Mr. J. P. O'Reilly  
Director  
Office of Inspection & Enforcement
