

Palmyra Pa.

Feb 15. 80

N.R.C. Middletown, Pa.

Dear Sirs:

I am making a request for you to cancel Med-Ed's license away from them, because of there lying and incompetency to run Three Mile Island.

I want it closed down completely.

When Eddie, I want to die from natural caused, not be killed by them.

I have Grandchildren + great grandchildren, and do not want them to suffer from that bunch of yo yo's mistakes.

Also that they will live an normal life.

They are not fit to run even a wheel barrow etc, let alone a plant like this.

What I would like to have done is put all those high up's of Met Ed. on top of those stacks and leave them there, or have them live there in Middletown.

I'll bet you could not get them any where near. For any length of ~~time~~, that would prove it out, and we would see how safe it is.

Use coal or any-thing else, but not Nuclear.

So in closing shut it down.

Mrs Alice A. Sweeney
