In the Matter of
The Regents of the University of California
(UCLA Research Reactor)
Docket No. 50-142
(Proposed Renewal of Facility License)

Members of the Board:

Enclosed herewith, pursuant to a request from Dr. Luebke's secretary, is a single set for the Licensing Board's use of a number of documents related to early licensing and operation of the UCLA research reactor. Included in this category of documents are inspection reports, licensee and AEC/NRC Staff correspondence on licensing actions related to the facility, and the Hazards Analysis Report submitted by the licensee in support of its application for an initial operating license. Additional documents in the Staff's possession will be forwarded as the Staff is able to assemble such documents and reproduce them.

Also enclosed is a single copy of the licensee's application for license renewal, excluding that portion of the application related to the licensee's physical security plan, a document which is classed as proprietary under 10 CFR §2.790(d).

By means of this letter, a copy of these documents is being sent to the Petitioner to Intervene, the Committee to Bridge the Gap. A copy of these documents will also be forwarded to the licensee when additional copies become available.

Sincerely,

Joseph R. Gray
Joseph R. Gray
