In re: Metropolitan Edison Company  
(Three Mile Island, Unit No. 1)  
Docket No. 50-289 (Restart)

Dear Mr. Pell:

At the prehearing conference on November 10, 1979, reported at transcript pages 595-97 (copy attached), it was indicated by Mr. Bowers, then counsel for ANGRY, that a new subparagraph d (on licensee's diagnostic and analysis work) would be added to ANGRY's Contention IV. However, we can locate no specific wording of that addition.

Was there a specification of that subparagraph of Contention IV filed with the board?

Very truly yours,

Doris M. Moran  
Clerk to the Atomic Safety  
and Licensing Board
