Emergency Diesel Generators Model 38TD8-1/8
Philadelphia Electric Co.
Limerick Units 1 & 2
Potential Seismic
10CFR50, Part 21 Report dated January 16, 1980
Supplement #2-Other 38TD8-1/8 Units

Gentlemen:

We have completed our investigation of engineering documents for other nuclear contracts involving the Fairbanks Morse Model 38TD8-1/8 powered generator sets with stacked heat exchangers. The potential for a situation similar to that reported on Limerick does not exist.

Very truly yours,

J. M. Moriarty
