Gentlemen:

The Commission has issued the enclosed Amendment No. 12 to Facility Operating License No. DPR-72 for Crystal River Unit No. 3. The amendment consists of changes to the Appendix B Technical Specifications in partial response to your application dated November 8, 1977.

This amendment waives the requirement to perform weekly quantitative sampling of fish and shellfish from the intake screens during the period intake canal modifications are being conducted. The requirement to perform daily visual checks of the screens has been retained. The rest of your November 8, 1977 application is being treated separately.

Changes to your proposal were necessary to meet our requirements. These have been discussed with and agreed to by your staff.

Copies of the Environmental Impact Appraisal and Notice of Issuance/Negative Declaration are also enclosed.

Sincerely,

A handwritten signature in cursive script that reads "Robert W. Reid".
